Commissioner:

In compliance with the duty of disclosure under 37 CFR §§ 1.56, 1.97 and 1.98, and in accordance with the provisions in the Manual of Patent Examining Procedure §§ 609 and 707.05(B), enclosed with the electronic filing of this Information Disclosure Statement ("IDS") is an IDS form (PTO Form SB/08a) listing references that are known to applicant. In accordance with 37 C.F.R. 1.98(a)(2), only "pdf" copies of references *other than* U.S. patents and U.S. published applications are enclosed with the electronic filing of this Information Disclosure Statement.

It is respectfully submitted that this filing is made during one of the periods described in 37 CFR § 1.97(b)(4), a Request for Continued Examination having been filed, and no Office Action having yet been issued as of the date and time of this IDS filing; no fee is therefore required.

Due to electronic filing limitations (for example, limitations regarding the number of references that may be listed on a single PTO Form SB/08a, and limitations with respect to the number of cited references that may be attached to a single electronic filing), the above-mentioned Information Disclosure Statement filing may be done in multiple parts, the multiple parts to be taken as one; each part of the multi-part filing to be accompanied by a copy of the Transmittal Letter for this filing, a copy of this IDS Transmittal Letter and a copy of each of the PTO Form(s) SB/08a.

It is respectfully submitted that some of the listed references (for example, U.S. Patent Document Reference Nos. 13-16 and 18-19 and Non-Patent Literature Document

Reference Nos. 1-2 listed on the first IDS form (SB/08a) enclosed with the electronic filing of this Information Disclosure Statement ("IDS"), and U.S. Patent Document Reference Nos. 2-3 listed on the second IDS form (SB/08a) enclosed with the electronic filing of this IDS) are U.S. patents, or co-pending U.S. patent applications, as the case may be, that have been or will be commonly assigned to the entity to which the above-referenced U.S. patent application has been or will be assigned.

It is respectfully submitted that some of the listed references (for example, U.S. Patent Document Reference Nos. 1-12 and 17; U.S. Patent Application Publication Reference No. 1; Foreign Patent Document Reference Nos. 1-3; and Non-Patent Literature Document Reference Nos. 3-7 and 28-29 listed on the first IDS form (SB/08a) enclosed with the electronic filing of this IDS; and U.S. Patent Document Reference No. 1 and Non-Patent Literature Document Reference Nos. 4-6 and 34-36 listed on the second IDS form (SB/08a) enclosed with the electronic filing of this IDS) were cited by Office Actions issued for U.S. or foreign patent applications, as the case may be, that have been or will be commonly assigned to the entity to which the above-referenced U.S. patent application has been or will be assigned.

It is respectfully submitted that some of the listed references (for example, Non-Patent Literature Document Reference Nos. 30-50 listed on the first IDS form (SB/08a) enclosed with the electronic filing of this IDS, and Non-Patent Literature Document Reference Nos. 1-3, 7-33, and 37-38 listed on the second IDS form (SB/08a) enclosed with the electronic filing of this IDS) are Office Actions issued for co-pending U.S. patent applications, or for U.S. patent applications that have issued as patents or for which prosecution has otherwise been closed, as the case may be, that have been or will be commonly assigned to the entity to which the above-referenced U.S. patent application has been or will be assigned.

While this Information Disclosure Statement, and the references and documents cited in the IDS form (SB/08a) enclosed with the electronic filing of this Information Disclosure Statement may be "material" pursuant to 37 CFR § 1.56, submission of this Information Disclosure Statement and citation of the references and documents listed in the IDS form (SB/08a) enclosed with the electronic filing of this Information Disclosure Statement are not intended to constitute an admission that any patent, publication or other information referred to herein is "prior art" for this invention unless specifically designated as such.

In accordance with 37 CFR 1.97(g), the filing of this Information Disclosure Statement shall not be construed to mean that a search has been made or that no other material information as defined in 37 CFR 1.56(a) exists.

It is respectfully requested that the listed references and documents be considered in the examination of this application and identified on the list of references cited on the patent issuing for this application. Applicant also requests that an initialed copy of the IDS form (SB/08a) enclosed with the electronic filing of this Information Disclosure Statement be entered in the application file and returned to Applicant with the next communication from the office in accordance with MPEP §609.

Section 2. FORM SB/08a

A list of patents and publications is set forth on the IDS form (SB/08a) enclosed with the electronic filing of this Information Disclosure Statement.

Respectfully submitted,
